Re: Sitting Case #126- No Northern Alignment!

L-00000B-04-0126

Dear Chairman Woodall and members of the Committee:

My name is Coy J. Cornforth and I am strongly opposed to placing the power lines through the heart of Casa Grande along the "Northern Alignment". While most of Pinal County is wide-open desert and farmland, the area along the Northern Alignment is some of the most densely populated and quickly developing in the entire County. Please do not site this line through the already existing neighborhoods and near our schools and churches. Thousands of people live in the immediate vicinity of the proposed Northern Alignment while very very few live anywhere near the Preferred Alignment to the south of Casa Grande.

Sincerely,

Coy J. Cornforth

RE: Siting Case #126 – No Northern Alignment!

Dear: Chairman Woodall and members of the Committee

For more than two years the citizens of Casa Grande have participated in discussions regarding various proposed routes for a 500 KV Transmission line between the Palo Verde Generating Plant west of Phoenix and a substation in the Apache Junction area.

During this time all interested parties have heard the same message from the citizens of Casa Grande: do not place that power line in the growth area in the northern section of Casa Grande general plan along McCartney Road. Yet, after numerous community meetings, where our voices were supposedly acknowledged as valued in the process of the decision for placement of this line, it appears we may have only received lip service and no value for the time and effort.

Why should the residents of Casa Grande be the recipient of this unsightly line? We find it especially difficult to stomach the proposal that this line is suggested to run directly by the northern boundary of Casa Grande Union High School. Besides tremendous housing growth in the path as well as attendant traffic due to the growth, there are additional elementary schools plotted within blocks of the path. There are already thousands of residents living in the immediate vicinity of this plan while other alternatives are very sparsely populated and without near future plans to become developed.

Except for what we assume to be a problem of economics, it makes no sense to place the line along McCartney Road rather than to take the line due south to a route around I-8. In reality, the most cost effective and least intrusive route would be far north of the city of Casa Grande, across the Gila River Indian Reservation. I see no reason for Casa Grande Union High School or other residents along the northern path to incur this problem.

Please. In the best interest of our community and our school, do not run the 500 KV transmission line along McCartney Road.

Sincerely,

Nancy Pifer

Re: Siting Case #126- No Northern Alignment!

Dear Chairman Woodall and members of the Committee:

My name is LANDIS MITCHELL and I am strongly opposed to placing the power lines through the heart of Casa Grande along the "Northern Alignment". While most of Pinal County is wide open desert and farmland, the area along the Northern Alignment is some of the most densely populated and quickly developing in the entire County. Please do not site this line through the already existing neighborhoods and near our schools and churches. Thousands of people live in the immediate vicinity of the proposed Northern Alignment while very very few live anywhere near the Preferred Alignment to the south of Casa Grande.

Sincerely,
